Dear [Boss's Name],

I hope this message finds you well. I wanted to bring to your attention a technical issue that I've encountered with specific data that is affecting project.

- It is causing delays tasks.
- I've tried to success but eventually its failed.

I have already contacted the IT team to attempted solutions, but the issue persists. I am concerned that if this is not resolved soon, it could impact timeline affected.

Would you advise if there is any additional support or next steps that I should take?

Thank you for your understanding and support. I'll keep you updated on any developments.

Best regards,
